ITS PAC OBJECTIVES AND SCOPE OF ACTIVITIES (Charter)

- The U.S. Secretary of Transportation, or his or her designee, shall present ITS PAC with tasks on matters relating to the study, development, and implementation of ITS and, in the exercise of his or her discretion, may withdraw a task being considered by ITS PAC at any time. The ITS PAC shall act solely in an advisory capacity to the Secretary. Through the ITS JPO, the ITS PAC will make recommendations to the Secretary regarding ITS program needs, objectives, plans, approaches, contents, and progress. The Secretary may accept or reject a recommendation made by ITS PAC and is not bound to pursue any recommendation from ITS PAC.
- The ITS PAC will provide a forum for national discussion and recommendations on ITS activities and will work to promote the coordination of external ITS activities with those of the U.S. Department of Transportation (DOT).

ITS PAC DESCRIPTION OF DUTIES (Charter)

- The ITS PAC shall be responsive to specific assignments and may conduct studies, inquiries, and workshops as the Secretary may authorize or direct.
- At a minimum, the ITS PAC will be expected to:
 - Provide input into the development of ITS aspects of the DOT Strategic Plan under 23 U.S.C. § 508.
 - Review, at least annually, areas of ITS research being considered for funding by the Department, to determine:
 - whether these activities are likely to advance either the ITS state-of-the-practice or state-of-the-art;
 - whether ITS technologies are likely to be deployed by users, and if not, to determine the barriers to deployment; and,
 - the appropriate roles for Government and the private sector in investing in the research and technologies being considered.
